

**WOODWORKING**

# Rakoll® GXL 3

**CONNECT YOUR BUSINESS WITH A COMPETITIVE EDGE**

To bring in-demand products to market, you need a partner with technical expertise that understands today's challenging woodworking industry. You need a partner that can help you deliver the products your customers want and provide the valuable support your business needs. We tailor our product and process innovations to meet our customers' critical needs, such as lowering cost in use, and increasing efficiency and production output. Our problem solving-power can add measurable value to your woodworking product.

PVAc adhesive, meets the requirements of class D3 as a one-component product and mixed with Rakoll® GXL-3-Härter meets the requirements for D4 standard DIN EN 204.

**PRODUCT ADVANTAGES**

Energy savings	Lower press temperatures of approximately 70°C, resulting in energy savings
Shorter pressing time	Shortened pressing time of only 40 seconds, at 70°C, for common veneers
Versatility	Used for cold, hot, high frequency and short cycle presses, as well as on difficult to bond woods
Flexible glued joint	Thermoplastic systems that increase cured glued joint flexibility
Environment	No solvents or formaldehydes are used

**MARKETS**

- Furniture production,
- Parquet flooring
- Door production
- Solid wood bonding

**TYPICAL APPLICATIONS**

- Edge/face gluing
- Finger jointing
- Flat lamination of HP, CPL and paper
- Millwork
